The Singapore Science Park lies at the heart of Singapore’s Technology Corridor, being the focal point of research and tertiary institutions, and national agencies. The Park has a total land area of 65 hectares, which includes Ayer Rajah Expressway to the north and Pasir Panjang Road to the south. The Singapore Science Park is set to become a major R&D and service centre in Asia, in line with Singapore’s Technology Corridor, and as part of a broader region of research and development. The national agencies involved include the National University of Singapore (NUS), National University Hospital (NUH) and one-north, Singapore’s biomedical R&D hub as its neighbours. Some of Singapore’s most desirable residential areas are within a few kilometers radius and the MRT commuter rail network is conveniently linked by shuttle services.

At the Singapore Science Park, all your needs are taken care of, from value-added business support services to a vibrant international business lifestyle that inspires creativity in a happy working life. Science Park I offers an extensive range of recreational and sports amenities, cafeterias, auditorium, conference facilities, complete with the audio-visual and presentation equipment. There will soon be a new fitness centre equipped with premium gym equipment, dance and spin studios which is slated to open in June 2015.

Regular tenant get-together sessions and business seminars are organised to enhance networking opportunities. Collaborative programmes with nearby tertiary institutions such as NUS includes industry seminars, business matching and networking opportunities. Other value-creating amenities and services include:

- Foodcourts, childcare facilities, autobanking, clinics and shops
- Intra-park and university bus shuttles
- Lunchtime shuttles to 5 locations
- Peak-hour bus shuttles to Mass Rapid Transit train stations
- Healthy Lifestyle Week
- Recreational activities eg. mini bazaars

The Singapore Science Park was conceptualized in the 1980s, following Singapore’s very successful industrialization programme, to become the focal point of R&D in Asia. Today, the 65-hectare Park consists of Park I, fronting the Ayer Rajah Expressway and Park II along Pasir Panjang Road.
