

A LEADER IN **SUSTAINABLE URBAN DEVELOPMENT** THAT CATALYSES ECONOMIC TRANSFORMATION AND ENRICHES LIVES

CO-INNOVATION INITIATIVES

CATALYSING PARTNERSHIPS ACROSS INNOVATION NODES

Ascendas-Singbridge collaborates with strategic partners to establish world-class technology and entrepreneurship communities across key regional nodes.

Partnership:

- Established in 2016 with the mission of connecting makers to markets
- Identify and engage large corporates with technology needs, and systematically help them build an open innovation program
- Curate and connect technology startups to co-create and address corporate innovation challenges
- Promote cross-border collaboration and exchange of technology between regional innovation nodes
- Focuses on innovations in the fields of Digital Health, Smart Cities, Advanced Manufacturing and Agritech
